**MonTag**

6 Ton Montag System mounted on a Krause Gladiator toolbar.

Looking for ways to save  
**20-40%** on fertilizer cost this year?

Montag Carts are designed to automatically steer behind whatever implement is pulling them. They come in 6, 9 & 12 ton sizes. Our dry fertilizer units come in 6 and 9 ton capacity. Both are available in 8, 12, 16 and 24 row options.

Montag also provides liquid units that mount on our auto steerable carts. These units are cone bottom tanks with standard 2" outlets. They are available in 1200 & 1700 gallon capacities.
